Supplement No. 5 to Part 742—Encryption Registration

Certain classification requests and self-classification reports for encryption items must be supported by an encryption registration, *i.e.,* the information as described in this Supplement, submitted as a support documentation attachment to an application in accordance with the procedures described in §§740.17(b), 740.17(d), 742.15(b), 748.1, 748.3 and Supplement No. 2 to part 748 of the EAR.

(1) Point of Contact Information

(a) Contact Person

Chris Mitroka

(b) Telephone Number

1-610-924-5761

(c) Fax Number

N/A

(d) E-mail address

service@mc2techservices.com

(e) Mailing Address

130 Brinton Drive

Coatesville, PA 19320

(2) Company Overview (approximately 100 words).

We provide a range of technical services ranging from speaker installation to software development. The software written may be contracted out to us or written by us for resale.

(3) Identify which of the following categories apply to your company's technology/families of products:

(a) Wireless

(i) 3G cellular

(ii) 4G cellular/WiMax/LTE

(iii) Short-range wireless/WLAN

(iv) Satellite

(v) Radios

(vi) Mobile communications, n.e.s.

(b) Mobile applications

Yes; we work with this category

(c) Computing platforms

(d) Multimedia over IP

(e) Trusted computing

(f) Network infrastructure

(g) Link layer encryption

(h) Smartcards or other identity management

(i) Computer or network forensics

(j) Software

Yes; we work with this category

(i) Operating systems

Yes; we work with this category

(ii) Applications

Yes; we work with this category

(k) Toolkits/ASICs/components

(l) Information security including secure storage

(m) Gaming

(n) Cryptanalytic tools

(o) "Open cryptographic interface" (or other support for user-supplied or non-standard cryptography)

(p) Other (identify any not listed above)

(q) Not Applicable (Not a producer of encryption or information technology items)

(4) Describe whether the products incorporate or use proprietary, unpublished or non-standard cryptographic functionality, including encryption algorithms or protocols that have not been adopted or approved by a duly recognized international standards body. (If unsure, please explain.)

No, encryption is left to the responsibility of SSL, which is what my software uses.

(5) Will your company be exporting "encryption source code"?

No

(6) Do the products incorporate encryption components produced or furnished by non-U.S. sources or vendors? (If unsure, please explain.)

No

(7) With respect to your company's encryption products, are any of them manufactured outside the United States? If yes, provide manufacturing locations. (Insert "not applicable", if you are not the principal producer of encryption products.)

No
